

Empathy Map

Date	02 June 2026
Team ID	
Project Name	EcoTrack - Personal Carbon AI Footprint Tracker
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - "I want to track my carbon footprint daily." - "Clear visual feedback keeps me accountable." - "AI suggestions should be quick & practical."	THINKS - "How much impact do my commutes have?" - "Can small diet changes reduce my footprint?" - "Will tracking daily habits help save energy?"
DOES - Logs travel km, diet choices, & kWh energy. - Reviews Groq AI lifestyle swap recommendations. - Checks 30-day analytics charts & streak badges.	FEELS - Motivated by dynamic carbon budget gauge. - Empowered to make eco-friendly daily choices. - Accomplished when unlocking streak badges.
